It is a matter of immense pleasure and Pride for me to be a part of the Veer Narmad South Gujarat University family as I/c Vice Chancellor. In the first place, I take this opportunity to wish you all a very healthy and Happy New Year. I welcome all the students from all parts of India aspiring for PG degrees at Veer Narmad South Gujarat University, Surat. We are aware that many of them have left the comfort of their home for their quest for knowledge. On behalf of the entire VNSGU family, I assure the students that the University is committed to their overall development. It is also committed to providing all the necessary support for their academic journey leading them to become successful, productive, and responsible citizens who can play a pivotal role in building a Self-reliant India as envisioned by Hon. We are passing through unprecedented times, COVID-19 has disrupted every existing system, and education is no exception. Despite COVID-19 challenges, the University has functioned to its optimum. We have been conducting online classes, and we are conducting practicals off-line following the SOPs laid down by Govt. of Gujarat to ensure that teaching and learning is not compromised at any cost. In addition to this, we have conducted off-line exams, maintaining social distance for the safety of everyone. It is noteworthy that the University has strengthened its IT infrastructure to meet the emerging challenges during the pandemic.

Moreover, the University has organized numerous webinars on Start-up and Innovations, NAAC, New Education Policy, among others. The University is working on the action plan for implementing NEW Education Policy as per the guideline by the State Government and Government of India. In short, we are not crippled by the pandemic; on the contrary, the University is functioning to its full capacity. I can say this with a lot of confidence that the University is striving to provide quality education for the benefit of our great nation. However, we can't afford to allow complacency to set in; we will need to lift our gaze and focus on developing our next strategies aimed at sustenance and enhancement of quality in higher education, keeping in view New Education Policy.

I take this opportunity to heartily congratulate the entire VNSGU family for keeping their spirits high and remaining productive at the optimum in these testing times. I wish to thank the members of the Senate and Syndicate, Deans of various faculties, Principals, Department Heads, teachers, university officials, technical staff, administrative staff, and support staff for their support. I take this opportunity to express my sincere gratitude to our Chancellor, Hon. Governor Shri and the Government of Gujarat for their guidance, encouragement, and support.

It also provides first hand practical experience in handling modern statistical software packages in the analysis of such data. In the present scenario, it is rather impossible, even to think of any field which does not employ modern statistical tools to arrive at rational conclusions from research studies and a statistician is always an indispensable part of any research team carrying out any research investigation. In order to enhance professional competence of the students and faculties, they are encouraged to participate in different seminars, workshops, training programmes and special lectures.
