EDITORIAL

Dear Readers,

It gives me immense pleasure to present the 17th Issue of INDEX, the **Annual Magazine of SPB English Medium College of Commerce**. A college magazine is much more than a collection of articles and photographs - it is a reflection of the institution's vision, achievements, creativity, and aspirations.

The academic years **2024 – 26** have been marked by learning, innovation, and holistic development. Along with academic excellence, our students have actively participated in seminars, workshops, sports, cultural events, community outreach programmes, and skill enhancement initiatives. These experiences have not only enriched their knowledge but have also helped them develop confidence, leadership, and social responsibility. This edition of INDEX captures the vibrant life of our campus through literary contributions, research articles, creative expressions, achievements, and memorable moments. From the Principal's Desk

"Education is not merely the pursuit of knowledge; it is the journey of discovering one's potential, nurturing values, and creating a meaningful future."

It gives me immense joy and a deep sense of pride to welcome you to the **17th Issue of INDEX (2024-26)**, the Annual Magazine of **SPB English Medium College of Commerce**. Every edition of our magazine is more than a compilation of achievements and memories - it is a living chronicle of dreams transformed into reality, aspirations translated into accomplishments, and young minds blossoming into responsible citizens.

The past academic years have been a remarkable journey of learning, perseverance, and excellence. Our students have proved that success is not an accident but the outcome of dedication, discipline, and an unwavering belief in one's abilities. Their achievements have illuminated the name of our institution and inspired every member of the SPB family.

We proudly celebrate the extraordinary accomplishment of **Ms. Isha Kapadia**, who secured the **First Rank at Veer Narmad South Gujarat University** during the academic year **2024-25** and earned **four prestigious Gold Medals and a Prize for her outstanding performance**. Her achievement is not merely a personal milestone; it is a shining example of academic excellence that motivates every student to pursue knowledge with passion and determination.

Equally inspiring are the accomplishments of our sportspersons, who have demonstrated that true education nurtures both the mind and the body. **Mr. Ayaz Murad** represented India in **International Table Tennis**, while **Ms. Afreen Murad** and **Ms. Kavisha Parekh** excelled at the **National Level** and emerged as **West Zone Champions**. **Mr. Rana Shubham** earned laurels in **National Aerobic Gymnastics**, **Ms. Muskan Gupta** brought glory through her **Gold Medal in National Cycling**, and **Mr. Jagdish Jadhav** secured a **West Zone Medal in Karate**. Their stories remind us that determination, resilience, and consistent effort are the true pathways to success.

Creativity and culture have always been integral to the identity of our institution. Our students left an indelible mark at the **Veer Narmad South Gujarat University Youth Festival**, winning accolades in diverse events and showcasing their artistic brilliance. They also distinguished themselves in numerous inter-collegiate competitions, proving that talent flourishes wherever dedication meets opportunity.

Learning becomes meaningful when it connects with the real world. Through industrial visits organised by the **College Excursion Committee** to **Euro Foods** and **Balaji Wafers**, our students experienced the functioning of modern industries firsthand, enriching their academic understanding with practical insights. Such experiences prepare them not only for careers but also for thoughtful and informed participation in society.

A significant milestone in our commitment to students' career development is the **Annual Job Fair** organised by the college. Every year, leading industries and reputed companies participate in this placement initiative, offering our students valuable employment opportunities and direct interaction with recruiters. The Job Fair serves as a bridge between academia and industry, enabling students to showcase their abilities, understand industry expectations, and embark on rewarding professional careers. It is heartening to witness many of our students beginning their career journeys through this platform, reflecting the college's unwavering commitment to enhancing employability and fostering successful futures.

In today's rapidly evolving world, academic qualifications alone are not enough. Communication skills, adaptability, confidence, and employability have become equally essential. Keeping this vision in mind, our college continues to successfully conduct **Finishing School** batches under the initiative of the **Department of Education, Government of Gujarat**, empowering students with life skills that complement their academic learning. The introduction of **Tally Courses** has further expanded their horizons, enabling them to explore emerging areas of knowledge and prepare for the challenges of a dynamic future. Behind every success story stands a collective effort. I extend my heartfelt gratitude to the Management of **Sarvajani Education Society**, our committed faculty members, supportive parents, devoted non-teaching staff, alumni, industry partners, and above all, our enthusiastic students, whose passion and perseverance continue to define the spirit of this institution.

As you turn the pages of this issue of INDEX, may you discover not only achievements but also stories of courage, curiosity, creativity, and compassion. May these pages inspire every reader to dream fearlessly, learn continuously, embrace challenges with confidence, and strive to become individuals who make a positive difference in the world.

Let us continue this journey together - with knowledge as our strength, values as our foundation, and excellence as our destination.

"The future belongs to those who believe in the power of learning, the dignity of hard work, and the courage to transform dreams into reality."

I extend my best wishes to every member of the SPB family for a future filled with success, purpose, and happiness.

It's okay not to be okay

In a demanding world that invariably recognises and celebrates strength, potency, capability and positivity, embracing emotional honesty is a tough yet inevitable skill that paves the way to harmonious living.

We all experience anxiety, sadness, mental fogginess, emotional distress from time to time – a natural part of being human - and often mistake it to be a sign of our weakness. Accepting this reality of human existence could be our first step towards genuine healing and self- actualisation.

Life is unpredictable and often we find ourselves struggling with personal losses, relationship issues, academic/ professional pressures, sudden and unprecedented challenges. We feel compelled to stay strong and face the music and thereby suppress our emotions and put up a brave face to meet societal expectations. We fail to understand that masking our feelings can trigger deeper emotional distress over time. Accepting that it is okay to feel overwhelmed at times helps us confront our emotions rather than avoid them.

Emotional honesty is the first step to mental well-being. Allowing the self to feel and express emotions without being judgemental, helps to make room for understanding and growth. It is only the brave who have the courage to admit "I'm not OK" and seek help and support when needed.

However, what is more important is removing the stigma around mental health. Individuals, it has been observed, hesitate to talk about their emotional challenges as they are afraid that society would misunderstand and judge them for their emotional outbreak. What is required is to establish a new normal for conversations that centre on emotional challenges. When we acknowledge that everyone has difficult moments, we create an environment where society becomes more compassionate and supportive and people feel safe to share and heal.

Reaching out to friends, family, counsellors, mental health professionals can make a significant difference. Confiding in someone you trust and sharing your distress can definitely bring clarity and comfort in any chaotic situations. Such support systems play a major role in combating emotional trauma and maintaining mental health stability.

The Sukdev Saha v. State of Andhra Pradesh judgement (July, 25, 2025) is a landmark directive by the Supreme Court of India on mental health awareness and protection, specially for students. Under this directive Mental health is no longer a social issue but a legal right. It has now become mandatory for educational institutes to adopt a formal mental health policy, appoint counsellors, conduct awareness and sensitisation programs, provide training to staff in identifying warning signs, providing psychological first aid, responding to crises and providing confidential counselling support to students.

What is needed is a change in social outlook towards mental health issues and the first step in this direction is to acknowledge *It's okay not to be okay*.

Failure is not the opposite of Success...

"Failure is not the opposite of success; it is a part of the process of success. Learn from it, grow through it, and never stop believing in yourself."

Every student dreams of success. Good marks, a good job, and a bright future are common goals. However, the journey to success is not always easy. Sometimes we fail in an exam, lose a competition, or do not achieve the result we expect. At such times, it is important to remember one simple truth: Failure is not the end. It is a lesson for future efforts.

Many successful people have experienced failure before achieving great success. They failed. They tried again. And again, they failed. But they did not give up. Instead, they learned from their mistakes, improved themselves, and tried again. Their failures became stepping stones to success.

Failure teaches us valuable lessons. It helps us understand our weaknesses and shows us where we need to improve. It also builds patience, courage, and determination. These qualities are often more important than success itself.

As students, do not be afraid of making mistakes. Every mistake is an opportunity to learn something new. Instead of asking, "Why did I fail?" ask, "What can I learn from this experience?" This positive attitude will help you grow stronger.

If you receive low marks, do not lose confidence. Review your preparation, identify your mistakes, and make a better study plan. If you are rejected in an interview or competition, improve your skills and prepare for the next opportunity with greater efforts. Every new effort brings you closer to success.

One last thing, always remember that success does not belong to those who never fail. It belongs to those who never stop trying. Hard work, discipline, and a positive attitude can turn failure into success. Life is a journey filled with both success and failure. Do not let one failure decide your future. Believe in yourself, keep learning, and continue moving forward with confidence.

Failure is not the END – It is a lesson for FUTURE SUCCESS.

હૃદય - Heart - દિલ, આશ્ચર્યનું ઐશ્વર્ય ! અને વિસ્મયની વિષ્ણુપ્રિયા !

હાલાં મિત્રો,

હૃદય હમેશાં આપણા શરીરની, ખડકુદ, ડાબી બાજુએ હોય છે પરંતુ એ હમેશાં કણકણ હોય છે. શું હૃદય ફક્ત લોહી શુદ્ધ કરવાનો પંપ છે ? ના લાગણીઓ અને સંવેદનાઓથી ભરપૂર છે.

આપણે જાણીએ છીએકે, સરેરાશ રીતે, આપણે સૌ દર મિનિટે ૧૫ શ્વાસોચ્છવાસ કરીએ છીએ તે હિસાબે દર કલાકે ૯૦૦ શ્વાસોચ્છવાસ કરીએ છીએ અને એક દિવસમાં એટલે કે ૨૪ કલાકમાં આપણે ૨૧૬૦૦ શ્વાસોચ્છવાસ કરીએ છીએ. એક વર્ષમાં ૭૮૮૪૦૦૦ શ્વાસોચ્છવાસ થાય છે અને તે પણ કોઈપણ પ્રકારનાં પ્રયત્ન વગર, પરમકૃપાળુ પરમાત્માની કૃપાથી સ્વાભાવિક રીતે થાય છે. જો આપણે સરેરાશ ૭૦-૮૦ વર્ષનું આયુષ્ય ગણીએ તો ૫૫૧૮૮૦૦૦ થી ૬૩૦૭૨૦૦૦ શ્વાસોચ્છવાસ થાય છે.

પુખ્તવયનાં માનવીનાં શરીરમાં સરેરાશ ૪.૭ લીટર થી ૫.૭ લીટર લોહી હોય છે અને આપણું હૃદય દર મિનિટે આટલા લોહીને શરીરમાં ફરતું રાખે છે. હૃદય એક ધબકારમાં લગભગ ૭૦૬.૬. લોહી શરીરમાં ધકેલે છે અને આપણું હાલસોયું હૃદય એક મિનિટમાં ૭૦-૮૦ વખત ધબકે છે. એમની સરેરાશ ૭૫ લઈએ તો, એક કલાકમાં ૪૫૦૦ વખત ધબકે છે એટલે કે એક દિવસમાં ૧૦૮૦૦ વખત હૃદય ધબકે છે અને એક વર્ષમાં ૩૯૪૨૦૦૦૦ (લગભગ ૦૩ કરોડ ૯૪ લાખ ૨૦ હજાર) વખત હૃદય ધબકે છે. આપણે સરેરાશ આયુષ્ય ૭૫ વર્ષ લઈએ તો ૨૯૫૬૫૦૦૦૦૦ એટલે કે લગભગ ૦૨ અબજ ૯૫ કરોડ ૬૫ લાખ વખત આપણું જીવનદાયી, જીવનરક્ષક હૃદય સમગ્ર જીવનકાળ દરમિયાન ધબકે છે અને ૮૦, ૮૫, ૯૦ થી ૧૦૦ વર્ષ જીવનાર વ્યક્તિનાં હૃદયનાં ધબકારા ૦૩ અબજ નાં આંકડાને વટાવી જાય !!! તો, મારાં હાલાં, ભાઈઓ અને બહેનો, ચાલો વિચારીએ કે, પરમકૃપાળુ પરમાત્માએ આ હૃદયની, દિલની, માંઘલાની, કડકુદની, આંતરિક માંશલ રચના કેવી અદ્ભૂત અને કેવી જડબેસલાક અને ખડતલ બનાવી છે એની કલ્પના આપણને આશ્ચર્યનાં ઐશ્વર્યની અદ્ભૂત અનુભૂતિ કરાવે છે !!

માતાના ગર્ભમાં બાળક ૦૪ અઠવાડિયાનું થાય છે ત્યારથી મનુષ્યનું હૃદય ધબકવાનું શરૂ કરે છે, તે છેક અંતિમશ્વાસ સુધી ધબકે છે. મુઠ્ઠીનાં કદનો આ અવયવ જીવનભર આખા શરીરમાં લોહીનું પરિભ્રમણ કરતું રહે છે અને તે પણ નિઃસ્વાર્થ ભાવે ! હૃદય જ્યારે કુલાય ત્યારે રક્ત, લોહી તેની અંદર આવે છે અને સંકોચાય ત્યારે તે લોહીને શરીરનાં અંગોને પહોંચાડે છે. આ રીતે શરીરનાં દરેક અંગોમાં લોહી મારફતે ઊર્જારૂપી ઓક્સીજન અને ગ્લુકોઝ પહોંચાડે છે અને રક્તકણોના મુખ્ય ઘટક હિમોગ્લોબીન દ્વારા ઓક્સીજનની હેરફેર કરે છે. આમ હૃદય પાસે પોતાનું ઈલેક્ટ્રિકલ જનરેટર છે, જે હૃદયને સમયાંતર, નિયમિત રીતે દર મિનિટે ૭૦-૮૦ વખત ધબકાવે છે અને લોહીનું હૃદયમાં આવાગમન વાલ્વ મારફતે થાય છે.

આપણા બોનમેરોમાં સફેદ રક્તકણો પોતાની અંદર લાલ રક્તકણોનું પોષણ કરીને ૦૫ દિવસે નવા લાલ રક્તકણોનું નિર્માણ કરે છે. શરીરમાં રક્તકણોની સંખ્યા ૨૫ ટ્રિલિયન છે. (૦૧ ટ્રિલિયન ઇ ૧૦૦૦૦૦૦૦૦૦૦૦૦). આ રક્તકણો શરીરની તમામ રક્તવાહિનીઓ સુધી પહોંચવામાં તે બને છે. રક્તકણોની જિંદગી ૦૪ મહિના જેટલી હોય છે. તે મૃત થતાં બોનમેરો સુધી પહોંચે છે, જ્યાં સફેદ રક્તકણો તેનો નાશ કરે છે. હૃદયની અંદર ૦૪ ખંડો હોય છે તેમાં વાલ્વ તરીકે ઓળખાતા પડદા હોય છે. લોહીની અવર-જવર વખતે વાલ્વ ઉઘાડ-બંધ થતા હોય છે. હૃદયના ૦૪ ખંડો પૈકી ૦૨ ભેપક અને ૦૨ કર્ણક હોય છે. આ ભેપકો પંપનું અદ્ભૂત કર્મ અવિરત કરે છે.

આમ હૃદય, પોતે નિઃસ્વાર્થ ભાવે અન્ય અંગોની આપણા જીવનનાં છેલ્લા શ્વાસ સુધી સતત થાક્યા વિના સેવા કરે

છે. આપણા વાળ કરતાં પાતળી એવી આપણા શરીરની (એક વ્યક્તિની) તમામ રક્તવહિનીઓને, ધમની અને શિરાને, શરીરની બહાર કાઢીને, એક બીજી સાથે ગંઢાડીને જોડી લઈએ તો અંદાજે, લગભગ ૦૧ લાખ કિલોમીટરની લંબાઈ થાય જેનાં દ્વારા આપણી બહાલસોથી વસુમતી-પૃથ્વીને ફરતે ૦૨ વખત વિંટાળી શકાય !!!

તો, ચાલો કલ્પના કરીએ કે, આ ૦૧ લાખ કિલોમીટરની રક્તવહિનીઓમાં, રુધિરાભિસરણનાં અદ્ભૂત નેટવર્કમાં ક્યારેક અડચણ, રુકાવટ આવી શકે ને !! હૃદયને લોહી પહોંચાડતી રક્તવહિનીઓ જ્યારે સાંકડી થાય છે ત્યારે આપણને એન્જાઈના (છાતીમાં દુઃખાવો) થાય છે. જ્યારે એમાં સંપૂર્ણ અવરોધ આવી જવાથી હૃદયરોગનો હુમલો આવે છે અને એના ઈલાજરૂપે એન્જિયોગ્રાફી દ્વારા રક્તવહિનીઓની તપાસ કરીને એન્જિયોપ્લાસ્ટી દ્વારા સંકોચાયેલી રક્તવહિનીને તેના મૂળ સ્વરૂપમાં લાવવાનો પ્રયાસ કરવામાં આવે છે.

અને છેલ્લે : હવે તો પરમકૃપાળુ પ્રભુકૃપાથી સફળતાપૂર્વક હાર્ટટ્રાન્સપ્લાન્ટ થઈ રહ્યા છે તથા ટીટેનીયમ ધાતુનાં ઉપયોગ વડે કૃત્રિમ હૃદય પણ બની રહ્યા છે, પણ તે કુદરતી હૃદય જેટલું અને જેવું સક્ષમ બને ખરું ?

- પ્રત્યેક હૃદયના ધબકારા સાથે ૦.૮ સેકન્ડ ની ફરીવાર જીવવાની પરવાનગી મળે છે અને પ્રત્યેક શ્વાસ સાથે ૦૩ સેકન્ડ જીવવાની પરવાનગી મળે છે.
- ડોક્ટર કહે છે - હું સર્જક ખરો પણ સર્જનહાર નથી.
- ડોક્ટર પ્રાર્થના કરે છે ત્યારે ચમત્કાર થતો હોય છે.
- માણસ એટલે ૯૫૩ થી ૧૦૫૩ ફેરનહીટ તાપમાન વચ્ચે જીવતું પ્રાણી !
- ૫.૫ ફૂટ ઊંચાઈ અને ૪૭ કિગ્રા. વજન ધરાવતા મહાત્મા ગાંધીજીનું બ્લડપ્રેશર હંમેશા ૨૨૦/૧૧૦ રહેતું જે ડોક્ટરો માટે એક કોયડો હતો અને છે. તથા સંશોધનનો વિષય છે કારણકે બ્લડપ્રેશનું પ્રસ્થાપિત ધોરણ ૧૨૦/૮૦ છે.
- આપણું દિલ એક વખત ધબકવાથી ૭૦ મિલી. અને ૦૧ મિનિટમાં ૪.૭ થી ૫.૭ લીટર લોહી પંપ કરે છે.
- એટલે કે આપણે સરેરાશ ૦૫ લીટર ગણીએ તો એક કલાકમાં ૩૦૦ લીટર લોહી અને એક દિવસમાં ૭૨૦૦ લીટર તથા એક વર્ષમાં ૨૬૨૮૦૦૦ લીટર અને ૭૦ થી ૮૦ વર્ષનું આયુષ્ય ગણીએ તો ૧૮૩૬૦૦૦૦ લીટર થી ૨૧૦૨૪૦૦૦૦ લોહી પંપ કરે છે અને આ નિઃસ્વાર્થ કર્મ હૃદય સતત કર્યા કરે છે !! (લગભગ ૧૮ કરોડ થી ૨૧ કરોડ લીટર લોહીની અવરજવર થાય છે !!).
- આપણું દિલ એટલી શક્તિ ઉત્પન્ન કરે છે કે જેથી એક ટ્રુકને ૩૨ કિલોમીટર સુધી ચલાવીને લઈ જઈ શકાય છે અને આખી જીંદગી દરમિયાન ચંદ્ર ઉપર જઈને પાછા પૃથ્વી પર આવી શકાય એટલી શક્તિ ઉત્પન્ન કરે છે.

Artificial Intelligence: A new wave to come

Artificial intelligence is going to change the foundation of human evolution. Recently, you may have heard about the proliferation of artificial intelligence in all the sectors of the economy. It is believed that artificial intelligence will lead to mass unemployment in the future. Many skills that are required at present in various fields will not be required after 2030.

Let me explain with an example, the impact of artificial intelligence. If a Chartered Accountant requires 50 accountants at present to complete his/her work, he/she would require 10 accountants to complete the same work because of use of Artificial Intelligence. Who would hire 50 people if the work can be done by 10 people with the same efficiency? Yuval Noah Harari rightly said that, a doctor could remember some hundreds of reports throughout his life time but artificial intelligence could analyse lakhs of reports.

USA and China are leading the race of development in the field of Artificial Intelligence. They have developed applications like ChatGPT and Deep Seek. Bharat should not lag behind in the race of Artificial Intelligence. Awareness should be increased related to AI through Courses in the academia. For Example, AI related subject should be a part of B.Com. degree course which teaches the impact of AI in fields related to commerce.

AI can have some negative consequences but if used efficiently with proper regulation it could do wonders for Homo Sapiens. It can positively influence health and education sector. A child in a remote area of Bharat can get the same knowledge that a rich child is getting from the best educator. It leads to decentralisation of knowledge which is very important for Bharat, as Education is the foundation on which the strong edifice of Developed India can be constructed.

I have started using AI for improving my efficiency in the field of education. A topic related to GST Council was not available in the book. Instead of going to the library and searching various books, I asked ChatGPT for explaining me about GST Council in easy language. It makes the process quiet efficient if used wisely.

Before some days, I was watching a documentary on You Tube about the development of education in Asian countries. I was amazed to see the way students learn in China. They are using AI efficiently in the schools to equip students with AI and help increase there performance. Hundreds of Universities are established to

impart AI knowledge to the students. China wants to be AI hub. Such kind of developments are required in Bharat to compete with China. Satya Nadella once said, AI is going to prevail. You cannot stop it. If you do not want to perish from the market you have to learn AI.

We don't know how AI is going to impact Homo Sapiens. AI development is an unorganic development, unlike human evolution which is organic development, so its evolution is going to be faster than our expectation. My intention is to make you aware about the wave of Artificial Intelligence because I have seen less discussion about it in Bharat. Let us see what happens next...

Beyond Rituals: The Fragrance of Being Truly Human

In a country as diverse and spiritually rich as India, religion occupies a central place in everyday life. Temples echo with prayers, mosques resonate with devotion, and churches offer quiet reflection. Yet, amid this visible religiosity, a subtle question arises, are we truly becoming more humane, or merely more ritualistic?

Religion, in its purest sense, was meant to elevate human consciousness to cultivate compassion, truth, and inner discipline. However, over time, a significant part of it has been reduced to external practices and unquestioned beliefs. Superstitions often replace understanding, and rituals sometimes overshadow the very essence they were meant to represent.

I often wonder: if God is truly omnipresent, why do we confine divinity within walls of stone? If the divine resides everywhere, then it must also reside within us, in our thoughts, our actions, and our intentions. Take a simple yet profound example. Every day, countless people offer flowers at temples as a symbol of devotion. But what is a flower? It is not merely an object. It is a metaphor. A flower represents purity, fragrance, and beauty. Then why not offer the flower of our own life?

A life lived with honesty, kindness, and compassion carries a fragrance far more

meaningful than any physical offering. Good deeds, pure thoughts, and the willingness to help others are the real petals of devotion. When a person spreads positivity, stands for truth, and acts with integrity, that itself becomes a sacred offering. Being human is not just about possessing a human body. It is about embodying humanity in its truest sense through our karma (actions), mind (thoughts), and heart (intentions). One should take pride not merely in being born human, but in living as one throughout life.

Unfortunately, we often witness contradictions. People who engage in rituals with great dedication may still hold prejudices, spread negativity, or harm others in subtle ways. This raises an uncomfortable yet necessary question: what is the value of worship if it does not transform our character? This is not an argument against religion, but against its blind practice.

True spirituality does not divide, it refines. It does not create fear, it nurtures awareness. It is not about proving devotion through external acts, but about expressing it through inner growth. Imagine a society where people focus less on ritualistic display and more on ethical living, where helping someone in need is considered as sacred as offering prayers, and where kindness becomes the highest form of worship. Such a society would not only be more religious in essence but also more humane in reality.

In the end, perhaps the greatest prayer is not spoken in words, but lived through actions. And the most beautiful offering is not placed at an altar, but cultivated within oneself. Because the true fragrance of devotion does not come from flowers we offer, it comes from the life we choose to live.

Nature heals the Heart

When the rain begins to fall,
it doesn't just touch the earth—
it touches the tired corners of the soul.

Each drop carries a quiet apology
for all the storms we have survived,
and a promise
that softness still exists in this world.

The flowers do not bloom loudly.
They rise in silence,
petals by fragile petals,
as if teaching us
that healing is never rushed—
only felt.

The sky weeps,
yet the earth smiles.
And somewhere between that sorrow and joy,
we learn
that tears are not weakness—
they are growing in disguise.

The wind moves gently through the trees,
whispering,
"You are allowed to begin again."

And in the hush after the rain,
when everything smells of fresh hope,
the world feels reborn—
not because it was never broken,
but because it chose
to bloom anyway.

Education

Education is the key that turns the lock of fate,
The silent force that opens every gate.
Beyond the classroom walls and printed page,
It is the light that guides us at every stage.

It grants the skill to build, the heart to dare,
A steady map through the "why" and "where."
In every action, in the words we choose,
It is the wisdom we can never lose.

It is a fluid force, an intellectual stream,
Bridging the distance between logic and dream.
In every calculated action and ethical choice,
Education provides both a direction and a voice.

A bridge to prosperity, a shield against the dark,
Within every student, it ignites a spark.
So let us cherish this gift, let us hold it tight,
The flame of knowledge-our ever-leading light.
